

LONG RANGE VHF INDOOR/OUTDOOR HDTV ANTENNA

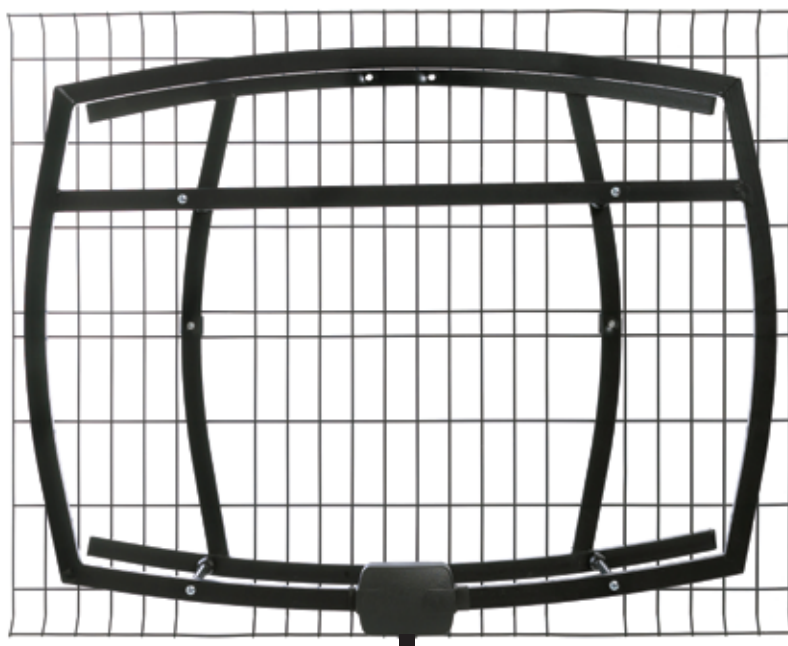

CLEARSTREAM® 5

The ClearStream® 5 Antenna uses patented technology to receive TV signals 65+ miles away from broadcast towers.

This antenna is ideal for suburban and rural areas where heavy foliage or roofing materials can reduce the incoming signal.

Dedicated UHF and VHF multi-directional elements deliver range and reception in less than ideal locations; no aiming necessary.

Durable, lightweight, premium materials for maximum performance.

DESIGNED AND ENGINEERED IN THE USA

A Leader in Cutting-Edge Antenna Technology

Proven Performance and Reliability. Why do our antennas out-perform the competition? The proof is in the patented technology. The CLEARSTREAM® series is engineered to respond to a greater range of frequencies along with a wide beam angle, eliminating the need for rotation, and have scientifically out-performed the competition for reliable, long-range TV reception.

As perfectionists and antenna enthusiasts, we constantly strive for innovation, therefore, we have taken the world's most advanced TV antennas and made them EVEN better. We have engineered the ClearStream® 5 to receive a greater range of frequencies along with maintenance-free ruggedness to withstand 100 mph winds. This antenna is powerful, easy to install, and will save you money!

The ClearStream® 5 Comes With:

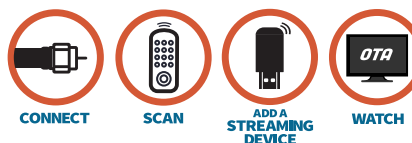

- ClearStream® 5 Antenna
- Reflector to enhance the signal performance
- All-Weather Mounting Hardware
- Assembly & Installation Instructions

An outdoor antenna will service many TVs. If your residence ever had satellite or cable TV service, but you're smart and not paying for TV anymore, you're in luck! The coaxial cable needed to distribute an antenna's signal throughout the home is already installed. Just hook up your new ClearStream® 5 HDTV antenna and you've got FREE TV.
