

# CARSON®

## Hawk™

### 30mm Compact Binocular

# HU-530

Congratulations on selecting your new Hawk™ 30mm Compact Binocular! In order to achieve optimum performance, please follow instructions for proper use and care.

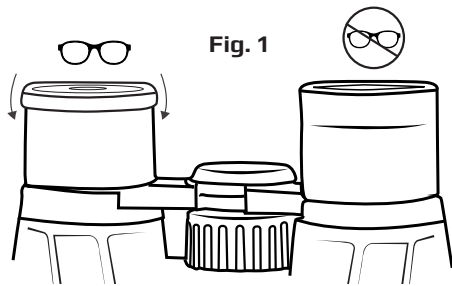

#### PRODUCT SPECIFICATION

Objective Lenses:	30mm	Eye Relief:	11mm	Accessories:	Soft pouch, neck strap and lens cloth
Field of View:	312 ft.	Weight:	0.31 lbs.		
Min. Focusing Distance:	8.0 ft.	Dimensions:	4.5" x 1.6" x 4.5"		

#### USING THE HAWK BINOCULAR

1. Bring the rubber eyecups close to your eyes.

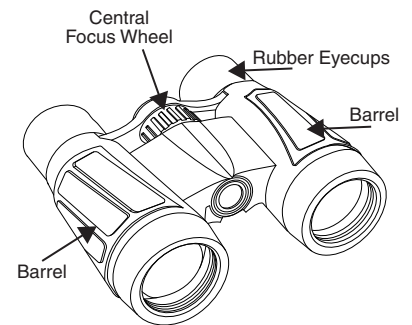

**Note:** If you wear eyeglasses, roll down eyecups to bring your eyes closer to the lenses. (See Fig. 1)

2. Rotate the barrels closer or further apart until you see a single ocular field.

3. To focus, look through the binocular at a fixed point and turn Central Focus Wheel until image is clear.

**Note:** You will need to adjust the focus wheel as you view subjects at varying distances.

#### CARE AND MAINTENANCE

- Blow briskly on lenses to remove any dust or debris, or use a soft lens brush.
- To remove dirt or fingerprints, breathe on lenses to form a light mist and rub lightly in a circular motion with a microfiber cloth.
- For a more thorough cleaning, dampen a microfiber cloth and rub gently in a circular motion. Do not use alcohol or ammonia based cleaners.
- Rubbing or cleaning with a coarse, dry cloth may scratch the lens.
- Never attempt to clean binoculars internally or take them apart. This may cause the internal optical components to become misaligned.
- Do not immerse binoculars in any liquid or expose to prolonged dampness. Wipe off any accumulated moisture with a microfiber cloth.

#### WARNING

Do not view the sun or bright objects with this binocular. Viewing the sun can cause permanent eye damage.
