FIRSTSTAGE AMPLIFIED  
INDOOR HDTV ANTENNA

60 MILE  
RANGE

The Mohu Arc Pro offers powerful performance with integrated FirstStage amplification and LED signal indicator lights. FirstStage amplification works right at the base of the antenna where TV signal is at its best for clear, efficient, uninterrupted signal boost and filtering. LEDs will illuminate where the signal is most stable, so you know where to place your antenna for the best reception. Contoured features on the outside complement multi-directional UHF and Hi-VHF elements on the inside to offer crystal-clear reception from the front and back of the antenna. You don't have to compromise on form or function, and setup is easy with a versatile stand for placing on a tabletop or mounting the antenna on a wall. **Enjoy watching TV that's already free. 8**

### FIRSTSTAGE AMPLIFICATION

Our FirstStage amplifier is integrated at the base of the antenna where TV signal is at its best, for enhanced reception and more TV channels.

### SIGNAL INDICATOR

LED lights show you in real time where TV signals are strongest in your home. The more lights you see, the more stable your reception.

### MULTI-DIRECTIONAL

UHF/Hi-VHF multi-directional elements receive TV signals from the front and back of the antenna.

### LET YOUR TV DO WHAT IT'S MEANT TO

TV is supposed to be fun, not frustrating. Enjoy watching broadcast TV channels for free with the Mohu Arc Pro. Easy setup and classic design make this antenna perfect for city, suburban, or single-TV homes and compact living spaces like dorms and apartments.
