UNIVERSAL CAR ALARM PRO TX-168

Automatic alarm triggering at motion detection by PIR sensor. It will detect movement in the car's interior with its 120° cone angle. The car alarm will alarm with 105dB and also activates the external siren mounted in the engine compartment.

The USB ports (USB/USB-C) can be used for charging e.g. your Smartphone.

Together, the Car Alarm, external siren and remote control form a unified system that is precisely coordinated with each other. In addition, it is also possible to use the Car Alarm as a stand-alone device.

You do not have to be an engineer to setup this car alarm on your vehicle. Very easy to install and use this anti-theft gadget.

This alarm system can be used in multifunctional ways. It can be mounted in cars, vans, offices, homes or used portable. The car alarm can be used as a panic alarm in case you feel unsafe (outside).
