Multiple Devices Connection

This smart projector is connectable to Computer/Laptop, Tablet, Smartphone, and Gaming consoles via AV, VGA, or HDMI. Playback of Video, Photo, and Audio Files from USB, SD, or external hard disk

Multifunctional

No matter where you want to use this gadget in the office, home, or outside, you can use it as a movie projector, or presentation beamer. Projection size 50" to 200" & Integrated 3 Watts speaker affords you to use it anywhere you need.

Portable Projector

Compact dimensions (23.4 (L) x 18.7 (W) x 9.6 cm (H)) and lightweight (only 1,36 kg) can afford you to take this small beamer once you are traveling, going to the presentation, or even once you are visiting friends.

Manual Focus Adjustment

It is easy to make the picture looks perfect with our projector TX-177. Adjust the focus with the focus adjustment wheel until the image is clear enough. That's all, then the focus is finished.
