1. Open the locks on the back

2. Take the food container out

3. Put the bird food inside the container

4. Put the food container back inside and lock the locks

5. Open the lock in the front. The bird food will flow into the feeder

Screen & Sensor

FullHD video resolution 1080p
Slow motion videos with up to 25FPS
PIR sensor (~20cm) & IR range (~50cm) with 940nm LEDs for night recordings
1/3.2" CMOS sensor with 8MP

Night vision mode

During the night, the infrared LEDs will turn on automatically to provide necessary light for taking pictures/videos. This makes it possible to take pictures at a distance of 50cm without the overexposure.

Power Supply

Self-developed energy control system optimizes the battery consumption and ensures recording. Operation with 4x AA batteries powers the camera for up to half a year, depending on the settings, the number of shots triggered by animals, as well as the outside temperature.

Download Files to a computer

Inserting the MicroSD card into a card reader or connecting the camera to a computer using the supplied MicroUSB cable.
