Inspection Service – United States and Canada

Before sending your unit for inspection, we recommend you read the troubleshooting section in your instruction manual. This section describes error indicators and common troubleshooting tips that may assist you in using your unit.

For troubleshooting assistance or the service address please contact [Consumer Support](#). Our representatives are trained to provide you assistance over the phone and may be able to resolve your problem without sending the unit for inspection. For the best possible assistance please have your unit available when calling us.
