

## Magnetic 15W Wireless Charger

### User Manual

#### Product Parameters:

Model Number: XYS-MAG15WHT  
Input: 5V2A, 9V2A  
Output: 5W/7.5W/10W/15W  
Product size: 58×58×6mm  
Material: ABS + TPE + Stainless steel  
Weight: 34g  
Built-in Type C cable: 3ft

#### Precautions:

Please follow these precautions to ensure safe and effective use of the Magnetic Wireless Charger:

**Do Not Disassemble:** Do not attempt to disassemble this product yourself, as it may result in damage or malfunction.

**Avoid Extreme Conditions:** Avoid using this product in hot or humid environments. Keep it away from sources of fire and water.

**Metal Substances:** Ensure that the charging contact surface on the back of the phone does not contain metal substances, as they may interfere with charging.

**Handle with Care:** Do not backlog or subject the charger to strong impacts or hits, as this may damage the product.

**Operating Temperature:** Maintain an ambient temperature between 0-45°C (32-113°F) while using the charger.

**Compatibility:** This product is designed for use with Apple 12 series or above mobile phones. For other mobile phones complying with Qi standards, it may be necessary to attach a receiving film or a mobile phone protective case with a receiving film for compatibility.

#### FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
