**#1 DOCTOR & PHARMACIST
RECOMMENDED BRAND**
OF BLOOD PRESSURE MONITORS

Advanced accuracy technology

measures five times more data points than previous OMRON models for more consistent, precise readings, minimizing the impact of breathing and movement during measurement.

Memory storage

stores up to 14 blood pressure readings in the monitor for one user.

Irregular heartbeat detection

informs you when your heart beats irregularly, which is vital information to track and share with your doctor.

Simplified Operation

features an easy-to-read display and one-touch design, making home monitoring convenient and intuitive.

Wireless Bluetooth[®] convenience

allows you to sync to the free OMRON connect app on your iOS or Android device and store unlimited readings, track trends, and share health data with your doctor.

Wide-range D-ring cuff

has a soft contoured design for a more comfortable measurement; fits adult upper arms 9" to 17" in circumference.
