

Solar-Powered Martini LED Light - 2 Packs

Model # 48606

Light up your Paths or Walls

Your MAXSA Solar Powered Martini LED Lights convert sunlight into electricity during the day, enabling the 4 LED lights to turn on automatically at night. These Martini LED Lights are perfect as both path lights or as wall lights. They provide illumination and help reduce falls and tripping. They are solar powered. The included rechargeable battery is powered each day by the sun to allow the Martini LED Lights to illuminate your paths or walls at night.
