

# AUSTERE

## AUSTERE V SERIES POWER 4-OUTLET

Austere Power products are an elegant way to safely and reliably power electronic devices throughout the home.

### TYPE II PUREFILTRATION

PureFiltration Type II: Advanced EMI/RFI filtration for a superior level of performance.

### FLAMELESS MOV PROTECTION

Austere employs flameless MOV circuits and thermal protected outlets, keeping you safe from a home electrical fire.

### OVERCURRENT PROTECTION

OverCurrent Protection ensures that our thermal protected power circuit cannot exceed 15 amps, which could cause devices to short circuit or create dangerous temperatures that may lead to a fire.

### SMARTFIT OUTLETS

Our SmartFit outlets have plenty of room to accommodate the bulkiest plugs.

### USB-C 20W POWER DELIVERY

There are three OmniPort USB rapid charging ports: 1 USB-C PD 20W, 1 USB-C, and 1 USB-A sharing 2.4 Amps of charging power while protecting all your low voltage devices.

### COMPONENT GUARANTEE

Our Component Guarantee promises that if Austere Power is responsible for any damage to a plugged-in device, Austere will replace that device regardless of its value for up to 5-years.
