

FRONT

thanks so much for choosing hiccapop! all hiccapop products are developed in-house by our own designers, and each was borne out of the fundamental requirement that it solve a problem. our nursery organizer is a great example of this because it solves the problem of “where to put stuff” - and who doesn't want to be more organized? we hope you love it.

hiccapop prides itself on stellar customer service. so if you ever have a question about anything, just drop us a note and one of our team members will quickly get back to you with an answer.

now onto our favorite part...
our shameless plug for reviews!

for us, amazon reviews are as important to our success as a good night's sleep is to a new parent, because they help spread good hiccavibes across America. so if you could please take a minute to review your nursery organizer, we'd sure appreciate it. and to make it really easy (which is important when kissing up like this), all you have to do is go to amazon.com/ryp to leave your review.

BACK

even though your nursery organizer is so simple that it can be installed in seconds, Big Brother still requires that we bore you with these instructions anyway. so here we go:

1. no assembly required! just unpack your nursery organizer and hang it on the rail of your changing table using our extra heavy-duty fasteners. they're also extra-large so they'll fit around anything. how's that for simplicity?
2. now, for you more adventurous folks: if you look on the back of your organizer, you will see two reinforced loops. those loops will allow you to hang your organizer on a wall or even a door. just remember - you'll have quite a bit of weight in your organizer, so if you hang it on the wall or door, make sure you anchor the mountings really well.

we hope you love your nursery organizer as much as we loved designing it! lots of hours (and caffeine) were put into its design, and we are incredibly proud of it. we look forward to bringing you many new and innovative products down the road!
