5.75 inches x 7.75 inches**

hello! thanks so much for choosing our new PlayPad. we often joke that our hiccapop® designers are like modern day Rumpelstiltskins, but instead of spinning straw into gold, they turn red bull and coffee into cool baby products. they just love churning out new ideas, and surprise us all the time with their inventiveness. our new PlayPad is just another one of their great ideas, and we hope you love it.

hiccapop® prides itself on stellar customer service. if you ever have a question about anything, just drop us a note and one of our energetic gen z'ers will quickly get back to you with an answer. also, don't forget to register at hiccapop.com/register.

now onto our favorite part...
our shameless plug for reviews!

for us, amazon reviews are as important to our success as a good night's sleep is to a new parent, because they help spread good hiccavibes across America. so if you could please take a minute to review your PlayPad, we'd sure appreciate it. and to make it really easy (which is important when kissing up like this), all you have to do is go to amazon.com/ryp to leave your review.

- mod. 102824
- Used with both HP-TPM and HP-ZPM

product instructions

attn: “big bro” requires these or we all go to jail! rest assured that we have kept them as brief as possible:

your new PlayPad comes compressed but will expand once the vacuum seal is broken. just unroll it, let it sit for an hour or so, and you’ll be good to go!

cleaning:

your cover is 100% waterproof-lined jacquard (the name of the 19th century french inventor of the overpriced “jacquard” weaving process). if it ever gets soiled, just remove it and machine wash it. it also wipes down with a damp cloth if things aren’t too messy.

final word:

we are a design company first and foremost, and we hope our new PlayPad reflects that. so if you like our stuff, please spread the word to your friends.

⚠ WARNING

SIDS AND SUFFOCATION HAZARDS

ALWAYS place baby on back to sleep to reduce the risks of SIDS and suffocation. Babies have suffocated:

- on pillows, comforters, and extra padding
- in gaps between a wrong-size mattress, or extra padding, and side walls of product.

NEVER add soft bedding, padding, or an extra mattress.

USE ONLY one mattress at a time.

DO NOT cover the faces or heads of babies with a blanket or over-bundle them. Overheating can increase the risk of SIDS.

ALWAYS check mattress fit every time you change the sheets, by pushing mattress tight to one corner. Look for any gaps between the mattress and the side walls. If a gap is larger than 1 in. (2.5 cm), the mattress does not fit - **do not** use it.
