

WorkEZ™ Standing Desk converts any table into an adjustable, ergonomic sit-stand desk.

The 3 separate components ensure that you compute with the healthiest body posture.

1. Monitor Stand adjusts in height from 0-2ft to hold monitors and laptops at eye-level.

Aluminum naturally dissipates heat to cool laptops.

2. Keyboard Tray lets your wrist droop down naturally in the healthiest typing position.

3. Mouse pad - Adjustable panel to hold your mouse at the optimal height and angle.

Key Features of the Keyboard Tray & Monitor Stand

Each joint is measured in 15° increments.

Joints lock in place every 15°.

To operate a joint, depress the button and rotate the leg to the desired angle.

- ⇒ Once the button is depressed, joints rotate in a complete circle or 360°
- ⇒ The joint is locked when the button is extended. Only use WorkEZ™ when all joints are locked.

Do NOT adjust with fingers between leg segments.

- ▶ Max load is 13 lbs.
- ▶ Joints must be locked (extended) before use.
- ▶ Before use, ensure that:
 - ▶ All joints are locked (extended)
 - ▶ The platform is level
 - ▶ Both legs are adjusted identically and evenly
 - ▶ WorkEZ™ is stable
 - ▶ The platform weight is centered over the bottom leg

Monitor Stand: Setup Instructions:

USE

Monitor Stand

Keyboard Tray: Setup Instructions:

USE

Keyboard Tray (2-legs)

Keyboard Tray (3-legs)

Mouse Pad: Setup Instructions:

The Mouse Pad connects to the right or left side of the panel

To Install:

1. Vertically insert the mouse pad into the panel's hole

2. "Roll" the mouse pad to the outside of the panel.

3. Adjust the screw so the mouse pad is level.

Tip! Simultaneously pressing the same joint on each leg lets you quickly and evenly adjust the platform angle or height.
