PRODUCT OVERVIEW

This 18-piece complete chasing ambient lighting kit includes everything installers need to transform the interior of any car from ordinary to extraordinary. This kit includes ambient LED lighting for the dash, footwells, door handles, door pockets, and doors. The ambient LED lighting provided by this kit surpasses that of luxury cars on the market, and the chasing patterns create a fun sci-fi effect. Additionally, a new reverse/door trigger function is activated by connecting the trigger to the door circuit. This option switches the entire kit to a solid white display when one of the vehicle's doors is opened and resumes a chasing display once the door closes.

Features

- Addressable LEDs
- For interior use only
- Universal applications
- 1-year warranty
